Letter to Parents/Guardians

Dear Parent/Guardian,

Re: Internet Permission Form

As part of the school's education programme we offer pupils supervised access to the Internet. This allows students to access to a large array of online educational resources that we believe can greatly enhance the learning experience.

However, access to and use of the Internet requires responsibility on the part of the user and the school. These responsibilities are outlined in the school's Acceptable Use Policy (enclosed). It is important that this enclosed document is read carefully, signed by a student and parent/guardian and returned to the school.

Although the school takes active steps to promote safe use of the Internet, it recognises the possibility that students may accidentally or deliberately access inappropriate or objectionable material.

The school respects each family's right to decide whether or not to allow their children access to the Internet as defined by the school's Acceptable Use Policy.

Having read the terms of our school's Acceptable Use Policy, you may like to take a moment to consider how the Internet is used in your own home, and see if there is any way you could make it safer for your own family.

Yours sincerely,

AUP checklist

For an AUP to be robust it needs to be reviewed and updated regularly taking into consideration implementation issues that may arise. The following is a checklist that may be used when developing or revising an AUP.

Have AUP implementation issues arisen since the AUP was designed/revised? ☐

Have these issues been discussed with parents, students and teachers and incorporated into an updated AUP? ☐

Given that an AUP is in place, can the school confidently address the following scenarios?

- A student is found using a chat room to arrange a face-to-face meeting with a friend ☐
- The school uses filtering software but a student accidentally accesses a pornographic website while in your care ☐
- A student publishes defamatory information on a personal website about a peer ☐

Has the AUP had a positive impact on curriculum delivery? ☐

Has internal or external expertise assisted the formulation or reformulation of the AUP? ☐

Has the AUP as a code of Internet use transferred to home use? ☐

Does an open dialogue exist between students and teachers relating to Internet misuse and safety issues? ☐

Are teachers' and students' internet safety training needs being met? ☐
