

Design a Parachute

STEPS
Engineers
Week

Draw the design for your parachute in the box below.
Label the parachute with the materials you will use.

Parachute Design

Prediction

Do you think your parachute will move to the ground quickly or slowly? Why?

Fill in the steps you took to design your parachute below:

Questions

1. Did your parachute move to the ground quickly or slowly?

2. What was the biggest challenge you faced when designing your parachute?

3. What were the main factors you had to think about when creating your parachute?

4. Did you need to change your plan at any stage? Why?

5. Do you think you made a good choice with the materials you used? Why or why not?
